WELCOME | FinTECHTalents

The event-only experience is dead

Two years ago VC INNOVATIONS was born with a clear mission: to deliver, above all else, value against our clients and partners strategic needs, whilst challenging the “event-only” type of experience. The idea was to work alongside our clients and partners to create content, build communities and live experiences.

FinTECHTalents has been pivotal to the development of this strategy as our content creation, distribution and amplification capabilities have enabled us to build a community of dreamers and doers that now exceeds 50,000 and is growing daily. This highly engaged community has come together several times throughout the past year, to experience a range of micro bespoke events featuring SME banking innovation leaders, high growth fintechs strategizing their US market expansion, incumbent players presenting their fintech investments and partnerships outlook as well as the developer community looking to learn more about open source collaboration and the platformification, to mention just a few.

We also saw the launch of three new brands. FinTECH4Life, a one-of-a-kind conference that addresses the huge opportunity that the fastest growing and wealthiest segment of society brings to the financial services sector – the over 55's. AITECHTalents brings together the brightest minds in the field of AI as well as future talent to explore its impact on Society, Work and Industry. RegTECHTalents is a regulation and compliance focussed show delivering less talk and more action.

Needless to say, we would not be able to accomplish all of this in such a short space of time without two key elements: the incessant work of our amazing team and the trust that our clients and partners have placed in us.

Thank you to all of our sponsors, exhibitors, delegates, steering committee members and partners.

You are content, you are community, you are experience.

Here's to a great FinTECHTalents festival!

24/7, 365 days a year - a community in action

Our mission is to create and deliver value to our clients giving them year-round access to a community built organically through a common desire to share knowledge and overcome industry challenges. At the heart of this vision is the creation, distribution and amplification of content that allows our partners to build awareness and demonstrate expertise and thought leadership across key industries and technologies.

With a portfolio of products from vox pop reports, weekly insights, interviews and dynamic video content, our partners have access to an arsenal of content, creating key touchpoints throughout the year and a strategic campaign that doesn't just start and finish with the event. That is why we believe the event-only experience is dead.

"The incessant work of our amazing team and the trust our clients and partners have placed in us."

For all festival news follow
@FinTECHTalents
#FTT19

FinTECHTalents, at its core, is about community building

Communities that come together to share knowledge, needs and opportunities have the most impact when all the key constituents are represented. The pace of transformation in financial services continues to accelerate and with that comes an ongoing need for innovative technologies, new business ideas, a willingness to embrace change and a growing pool of talent.

When we set out to create FinTECHTalents we gave a lot of thought to who those groups might be and how to ensure that they came together to meet those needs with the greatest effect. We realized the central importance of having cross functional teams from incumbent financial institutions of all shapes and sizes involved in the Festival.

"We have created ongoing relationships with most of the Financial Institutions joining us for FinTECHTalents"

Leaving the participation of those key groups to chance is not part of our approach, nor part of our commitment to deliver all parts of our community the most value from participating in the Festival. We have created ongoing relationships with most of the Financial Institutions joining us for FinTECHTalents – from sponsors to delegates – and committed early on in the planning for this year's Festival to growing the number and diversity of our community of engaged Financial Institutions. The significant growth of FI community is the result of those efforts and contributes to the success of this year's event.

At the end of the day the TECHTalents Festival is an Experience

Our core mission is to provide Community, Content and Experiences to a range of industries and partners. But what does that mean exactly? Well, for us that means:

- Communities that are an open door, not a VIP lounge.
- Content that invites discussion, debate and even dissent.
- And Experiences that happen with people you meet face-to-face, not with those you watch from 100 feet away.

These are values, not words on a company brochure. These values are the foundation on which we created FinTECHTalents, AITECHTalents and RegTECHTalents.

Industry innovators, startup founders, financial institutions, and academics – our core Community – will all gather on November 11th, 12th and 13th under one roof at Printworks in Central London. Our community will lead discussions – not sit passively in a stream of endless panels – on topics such as team building, digital transformation, DLT and Open Banking.

Our Content will ask big questions – Where we are going will we still need banks? Do banks even need a head of digital? But we also won't shy away from the nitty gritty of real world case studies – How do you become an entrepreneur from inside a large bank? Can financial services ever embrace true open source development? How dirty do your fingernails get when working on a rough and tumble digital transformation project?

At the end of the day the TECHTalents Festival is an Experience - From the venue, to the music, the craft beer, the BBQ to the dozens and dozens of conversations, plans and connections that will be had at Printworks. It is a celebration of FinTech, AI and RegTech that you will feel - not only during the second week of November 2019 – but throughout the rest of the year and into 2020.

Our journey began with an idea to make Content, Community and Experiences better. Full Stop. Thank you for continuing that journey with us. Enjoy the show. The journey will be epic.

FusionFabric.cloud

THE OPEN PLATFORM

For banks and fintechs to unlock the
potential of finance for everyone

Introducing the first global open development platform in financial services.

Free for all developers to create new financial software solutions in the cloud
and pioneering apps at scale and speed.

Changing the way financial software is developed, deployed, consumed and monetized.

ACADEMIA

STEERING COMMITTEE | FinTECHTalents

Our world-class Steering Committee is designed to represent the full ecosystem, featuring industry leaders, academia, influencers and talent.

Annerie Vreugdenhil – CIO, *ING*

Joerg Guenther – GLOBAL HEAD OF SECURITY SERVICES TECHNOLOGY, *Citi*

Ceri Godwin – DIRECTOR, GROWTH & ADVISORY - EMTECH, *Santander UK*

Ewan Macleod – CDO, *Nordea*

Slavomir Psenak – CTO, *Erste Group*

Ainhua Campo Nieto – GLOBAL HEAD OF OPEN INNOVATION, *BBVA*

Romain de Maud'huy – CHIEF TRANSFORMATION OFFICER, *Axa Partners*

Pol Navarro – CDO, *TSB*

Diana Biggs – GLOBAL HEAD OF INNOVATION, *HSBC PRIVATE BANK*

Chris Worle – CDO, *Hargreaves Lansdown*

Søren Rode Andreasen – CDO, *Danske Bank*

Jayson Callies – CTO, *Seattle Bank*

Prof. Philip Treleaven – DIRECTOR, CENTRE FOR DOCTORAL TRAINING IN FINANCIAL COMPUTING, *UCL*

Martijn Moerbeek – GROUP DIGITAL STRATEGY & INNOVATION DIRECTOR, *Legal & General*

Mitesh Soni – SENIOR DIRECTOR, INNOVATION & FINTECH, *Finastra*

Valentina Isakina – MANAGING DIRECTOR, FINANCIAL SERVICES, *JobsOhio*

Jamie Broadbent – HEAD OF DIGITAL & INNOVATION, *RBS International*

Diana Carrasco – GROUP HEAD OF RISK, DIGITAL CHANNELS, *Lloyds Banking Group*

Dean Butler – HEAD OF INNOVATION, *Prudential*

Roger Vincent – CIO, *Trade Ledger*

Dr. Steve Phelps – DLT PROGRAMME LEADER, *King's College London*

Ghanshyam Patil – DIGITAL LEAD BLOCKCHAIN, *AXA XL*

Lucy Woolfenden – FINTECH MARKETER

Valentina Kristensen – DIRECTOR OF GROWTH & COMMUNICATIONS, *OakNorth*

Suren Siva – DIRECTOR STRATEGY & INNOVATION, *Credit Suisse*

Siddharth Singh – GLOBAL PRINCIPAL INVESTMENTS, *Bank of America Merrill Lynch*

Lianna Brinded – HEAD OF UK FINANCE, *Yahoo*

Gilad Amir – EIR, *Pollen Street Capital*

Dr. Sin Wee Lee – AI PROGRAMME DIRECTOR, *UEL*

Russell Fisher – HEAD OF VENTURES, *Nationwide Building Society*

Parminder Mann – HEAD OF MOBILE, *Metro Bank*

Patrick Mang – HEAD OF INNOVATION FOR GLOBAL MARKETS, *HSBC*

Larry Potter – CRO, *Starling Bank*

Florin Boldescu – CDO, *BRD - Groupe Société Générale*

Tanya Andreasyan – MD AND EDITOR IN CHIEF, *Futures/Banking Technology*

Sumesh Vijayakumar – GLOBAL BUSINESS TRANSFORMATION, *Allianz*

Diana Paredes – CEO & CO-FOUNDER, *Suade Labs*

Wincie Wong – HEAD OF INNOVATION FOR SUPPLY CHAIN SERVICES, *RBS*

Ryan Edwards-Pritchard – FORMER MANAGING DIRECTOR & FINTECH WIZARD, *Funding Options*

Magdalena Krön – HEAD OF RISE LONDON & FINTECH PLATFORM LEAD, *Barclays*

publicis
sapient

The Future of Banking is NOW.

Will you Evolve, Jump or Attack?

In a highly disruptive environment, banks are in the ideal position to revolutionise their position and transform the lives of customers. Three models determine the most successful way forward: **Evolve** by shifting to a more effective model, **Jump**, by creating and migrating to a new entity, or **Attack** by taking the fight to the challengers and launching a unique proposition to generate new revenue. But the time to reinvent and define the future is now.

To understand how Publicis Sapient is helping leading banks transform for NEXT or if you're interested in joining our team, speak to our booth team or visit www.publicissapient.com.

WELCOME STAGE

10:00 - 10:10

WELCOME STAGE

Welcome to FinTECHTalents Generation 2019 - Day 1. A focus on current trends around technology, innovation and talent.

10:10 - 11:30

Keynote Debate | Where we are going, will we need banks?

Forget the General Election - we have gathered the best and the brightest minds in FinTech to debate the future of our industry.

FinTECHTalents will be observing a two minute silence at 11:00 in honour of Armistice Day

The final winner - our industry will decide.

Anne Boden, CEO, Starling

Josh Bottomley, Global Head of Digital, HSBC

Russell Pert, Industry lead, Financial Services, Facebook

Aritra Chakravarty, Founder & CEO, Dozens

Ceri Godwin, Director, Growth & Advisory-EmTech, Santander UK

Moderators:

Lianna Brinded, Head of Yahoo Finance UK

Joy MacKnight, Managing Editor, The Banker

11:30 - 12:00

Keynote | You say you want a revolution...but do banks have what it takes?

FinTechs are at the edge of the banking industry, responding to shifting consumer behaviour as they are driving change in the banking ecosystem. But do legacy banks understand what is required to run with the challengers? Is it already too late?

Matt Locsin, Global Head of Innovation, Publicis Sapient

12:00 - 12:30

Fireside Chat | Digital transformation in the real world

AOE and Commerz Real AG talk through the cultural and operational realities of digital transformation.

Kian Gould, CEO & Co-Founder AOE

Dr. Andreas Muschter, CEO, Commerz Real AG

12:30

Lunch & Networking + Live Music

FINTECH STORIES

AWESOME COMPANIES:

Sotiris Manderis, Managing Director, Corporate and Institutional Digital, HSBC

Karen Jones, Service Design, Commercial Banking, Lloyds Banking Group

16:15 - 17:00

Discussion | Security, Identity and building a safer world

Gail Kozlowski, Credit Card Product Lead, RBS

Emma Lindley, Co-Founder, Women in Identity

17:00 - 17:45

Discussion | Open Banking| How it works

Open banking launched as hype - while many banks, firms and companies started the quiet process of doing. How was Open Banking done? A series of case studies to discuss.

George Miltiadous, Head of Open Banking Delivery, UK, HSBC

Frank Jan, CEO, Yolt

WELCOME STAGE

17:45 - 19:00

Unthink Tank - a talk series by Yolt

Unthink Tank explores the concept of 'unthinking'. Inviting leaders and innovators from the tech, disruptor and creative communities to discuss issues that impassion and empower them.

Dr. Sue Black OBE Unthinks gender bias and the future of technology

18:00 - TIL LATE

Party time! - Networking, Craft Beer and Live Music!

19:15

Live Music Stage - Our community convenes

We bring everyone back to:

- Reflect on the day
- Highlights what can be expected on Day 2

WELCOME STAGE

- 10:00 - 10:10 **Welcome to FinTECHTalents - Day 2**
A focus on the future – the how, what, where and who that will build the next generation of financial services.
- 10:10 - 11:00 **Keynote Debate | Do we need a head of digital?**
Technology has long been a part of financial services - the recent FinTech revolution aside. If 'tech' has always been a part of 'the Fin' - how has the role of the 'tech chief' changed? Do banks still need a head of digital?
- The Digital Debate - Our audience decides.
Chris Worle, Chief Digital Officer, Hargreaves Lansdown
Andrew Smith, CTO, ClearBank
Drew Graham, Director, Digital Strategy, Barclays
Anshu Sharma Raja, MD, Retail Banking Technology, Standard Chartered
Moderators: Jamie Powell, FT Alphaville, Financial Times
- 11:00 - 11:30 **Fireside Chat | How to build FinTech partnerships in the real world**
FinTech powerhouse, OakNorth sit down to talk about the origins of partnerships, current plans and future strategies.
Amir Nooriala, Chief Strategy Officer, OakNorth
Moderator: Bradley Leimer, Co-Founder, Unconventional Ventures
- 11:30 - 12:15 **Panel | Finding a unicorn in a glitter storm**
We all love FinTech and want it to succeed - but where is the ROI? Our investors reveal what they really really want in their portfolios.
Thomas Bussey, Investment Manager, Strategic Innovation Investments, HSBC
Valentina Isakina, Managing Director, Financial Institutions, JobsOhio
Juliette Souliman, FinTech, VC Investor, Octopus Ventures
Alix Brunet, VP, Citi Ventures
Moderator: Charlotte Crosswell, CEO, Innovate Finance

Chapter 11 **Quent Rickerby**, Managing Director, 123signed
Chapter 12 **David Sirignano**, MD, Grow Secure

STRATEGY STAGE

Strategy Stage Chair - Pam Bateson,
CEO & Founder, Thrive Partners

13:30 - 14:00

Fireside Chat | Scaling and team building in the real world
Monzo sheds light on the realities of scaling.

Jack Villiers, Lead, Tech Hiring, Monzo
Bobbi Nicholson, People Operations Lead, Monzo

Moderated by:
Terry Gore, Director, Financial Services & FinTech, JobsOhio

14:00 - 15:00

Case Study | When your Launchpad is a bank
Case studies from the Entrepreneurial Programme and Digital Programme at Société Générale

Anthony Woolley, MD, UK Chief Innovation Officer, Société Générale
Sohail Raja, Head of Execution Platforms & UK Chief Digital Officer, Société Générale
Gene Salerna, CDO, Kleinwort Hambros Private Bank
James Green, Innovator and Intrapreneur

15:00-15:30

Snack Time!

15:30 - 16:15

Discussion | Unleashing Network Effects
From the point of view of bank, technology provider and investor. Lots of practical, sage advice.

Martin McCann, CEO, Trade Ledger
Oliver Prill, CEO, Tide
Evgenia Plotnikova, Principal, Dawn Capital
Ben Robinson, Co-Founder, Aperture

BUILD STAGE

Build Stage Chair - Ghela Boskovich, Founder
FemTech Global

13:30 - 14:00

Keynote Fireside Chat | Tech in Practice - AI & Big Data for the future of Credit Risk Management
How can firms use millions of data points to gain real time insights?

Emmanuelle Mathey, Head of Credit Risk, Schroders
Bob Koster, Commercial Director, OwlIn

14:00 - 15:00

Discussion | Keeping secure whether open source or inner source

Nigel Abbott, Regional Director, North EMEA, GitHub
James McLeod, Director of Community, FINOS

15:30 - 16:15

Discussion | Crack it open - DLT
Blockchain and distributed ledger - laid bare

Anthony Stevens, Global Head of Product Innovation, C&IS at Northern Trust Corporation
Aime Stokes, Innovation Project Analyst - DLT, RBS/NatWest

STRATEGY STAGE

16:15 - 17:00

Discussion | Talent 2.0

What makes a good team member?
Where can you find the best talent?
Is it all about skill and learning – or is there a personality 'type' that works better in tech?

The technology and innovation industries are at a cross roads. Where can 'talent' go from here?

Wincie Wong, Head of Rose Review Implementation, RBS/NatWest
Romain de Maud'huy, Chief Transformation Officer for Motor and Travel, AXA Partners
Jennifer Drabble, Director of Data Product and Science, Barclays

BUILD STAGE

16:15 - 17:00

Discussion | Digital Transformation – Getting it done

Beyond the buzzwords, we hear from people who are getting their hands dirty and getting down with digital transformation.

Roberta Profeta, International Subsidiary Banks Division, Multichannel Office, Intesa Sanpaolo
Jamie Broadbent, Head of Digital & Innovation, RBS International
Terry Chapendama, director, National Bank of Kuwait (International) PLC
Philipp Petrescu, Co-founder & MD MVP Factory

WELCOME STAGE

17:00 - 18:00

Case Study - Lloyds Banking Group's Digital Transformation with Publicis Sapient

Publicis Sapient

Dave Gore, Engineering Director, Lloyds Banking Group
Pinak Vedalankar, Head of Engineering, Publicis Sapient
Dr. Kanishka Bhattacharya, Senior Director, Data Science & Analytics, Publicis Sapient

Moderator: Lucy Bell, Senior Talent Strategist, Publicis Sapient

18:00

End of Day Two | Our community convenes

We bring everyone back to a main area to:

- Reflect on the day
- Find out what we expect from Discovery Day on Day 3!

WELCOME | AITECHTalents

Nothing kicks off flights into science fiction fancy quite like discussions around artificial intelligence. Whether it be the countdown to autonomous vehicles, the development of intelligent, creative machines to the semi-regular tabloid warnings about how robots will soon steal our jobs – it can be hard to balance the true impact of AI and machine learning on our lives against hype and hyperbole.

On Day 3 of the Festival we will take a sharp look at how Artificial Intelligence will impact our Society, our Industries and our Workplace.

WELCOME | RegTECHTalents

RegTech Conferences that were once well attended and enjoyed in 2017 have suffered a slow decline thanks to a repetitive agenda and lack of tangible outcomes.

We believe the industry deserves better and so created RegTechTalents for you!

RegTechTalents is the only global forum in the RegTech industry focussed on creating a meaningful dialogue aimed at improving the implementation and understanding of Regulatory Technology.

Starting the day with why RegTech is needed, exploring the benefits it can realise through real life stories and debating the big topics of the day, Regulation, Privacy and Crypto.

AITECH STAGE

10:00 - 10:10 **Welcome | AITECHTalents - Society, Industry, Workplace**
Liz Lumley, Director, VC Innovations
Terry Cordeiro, Product Lead, 11.FS

10:10 - 10:30 **Keynote | AI in plain language**
Clara Durodie, Chair, Cognitive Finance

10:30 - 12:30 **Society | Risk, Regs and Ethics**

10:30 - 10:45 **Society | Accountable and Explainable AI**
Janet Adams, Head of Risk & Controls, Head of AI, SME, TSB Bank

10:45 - 11:30 **Society Panel | A safe space for AI**
How do we solve the problem of unintended and harmful behaviour that may emerge from poor design of realworld AI systems.

REGTECH STAGE

10:00 - 10:10 **Welcome | RegTECHTalents - Technology, Regulations & Talent**
Sian Lewin, Co-founder and Head of Client Delivery, RegTech Associates

10:10 - 10:30 **Keynote | The "Why" of Regtech**
Julia Black, Strategic Director of Innovation for LSE and member of the Prudential Regulation Committee of the Bank of England

10:30 - 11:15 **Chat | What are the challenges for regulated firms?**
This morning's guests include global bank, an exchange and a FinTech - as they sit in the hot seat.

Eric Wu, Head of Technology, Revolut
Adriana Ennab, Head of Policy, Credit Suisse
Anne Giviskos, Head of Risk and Compliance | Chair, Benchmark Oversight Committee, Euronext

Host: Ruth Wandhöfer, NED, Consultant & Partner, Gauss Ventures

AITECH STAGE

Janet Adams, Head of Risk & Controls, Head of AI, SME, TSB Bank
Emilia Tantar, PhD, Chief Data and Artificial Intelligence Officer, INCERT GIE

Ronan Brennan, Strategy & Innovation, Personal Banking, RBS
Valeria Cortez Vaca Diez, Data Scientist, Machine Intelligence Programme, Lloyds Banking Group

11:30 - 11:45

Society | Should I be using AI for this?

Charles Radclyffe, Head of AI, Fidelity International

11:45 - 12:30

Society Panel | Morality and the machine

Within the seemingly boundless landscape of AI do questions of ethics remain for both humans and machines?

Charles Radclyffe, Head of AI, Fidelity International

Lisa Talia Moretti, Associate Lecturer, Institute of Management Studies, Goldsmiths College

Theo Lau, Co-Founder, Unconventional Ventures

REGTECH STAGE

11:15 - 11:45

Stories | Real life crime stories Should citizens be willing to sacrifice rights to data privacy for better regulatory controls?

From the files of Financial Crime Squad - we examine the impact, aftermath and how technology can be used to prevent dubious activities.

Chris Felton, Director of Economic Crime Academy, City of London Police

Denisse Rudich, Policy Advisor, Sentry

11:45 - 12:30

Debate | Data Privacy v Regulatory Controls

Citizens should not have to sacrifice their right to data privacy for better regulatory controls

For: Valerie Khan, Co-founder and Vice President, Digital Equity

Against: Peter Lancos, CEO, Exate

Moderator: Nilixa Devlukia, Head of Regulatory, Open Banking Implementation Entity

12:30 - 13:30

Lunch & craft beer sessions

13:30 - 14:30

Industry | AI Adoption in Financial Services

13:30 - 13:45

Industry | Keynote

How can artificial intelligence, advice and analysis guide us to making better decisions in financial services?

Adri Purkayastha, Head of Technology & Cyber Risk Analytics, BNP Paribas Group

13:45 - 14:30

Industry | Behavioural Economics

Can nudges and pokes create better financial services for all?

13:30 - 13:45

Keynote | RegTech Startups take the stage

Sholthana Begum, Senior Technical Specialist, Bank of England

13:45 - 15:00

Challenge | RegTech Startups take the stage

Problem presented, Challenge accepted, Solutions expressed - Our expert panel (and our audience) decide

AITECH STAGE

- >> **Roshan Rohatgi**, Senior Innovations & Entrepreneurial Professional, RBS
Poojya Manjunath, Machine Learning Senior Product Manager, Lloyds Banking Group
Adri Purkayastha, Head of Technology & Cyber Risk Analytics, BNP Paribas Group
Dr. Peter Brooks, Chief Behavioural Scientist, Barclays

14:30 - 15:00

Snack Time!

15:00 - 17:00

Workplace | Automation, assistance and the jobs of the future

15:00 - 15:15

Workplace | Keynote

Beyond automation – which jobs are being supported by robotics and machines?

Ganna Pogrebna, Professor of Behavioural Economic and Data Science, University of Birmingham

15:15 - 16:00

Workplace | Future skills for an automated world

Will skills such as communication, care giving, and creativity gain further importance in the future?

Ash Booth, Head of AI, HSBC
Louise Smith, Head of Intelligent Automation, RBS
Cristian Paun, CIO, EMEA, DuPont

16:00 - 16:45

Workplace | Conversing with 'bots

Chatbots, conversational interfaces, and the changing nature of customer service

REGTECH STAGE

- >> **Expert panel:**
Graham Corr, Head of Regulatory Technology Development at Royal Bank of Scotland
Tariq Khan, Partner (Fintech & Regtech), Outrun Ventures
Gavin Smyth, Director of Risk & Compliance, Nationwide

Ascent, Craig Novack, Account Executive

Keepabl, Robert Baugh, CEO
Quantexa, Marc Temple, Financial Crime Solutions, EMEA

Objective Keystone, Stewart Davies, Head of UK Financial Services, Objective Keystone

Moderator: Jason Boud, CEO, RegTech Associates

15:00 - 15:30

Snack Time!

15:30 - 16:15

Debate | Regulating Crypto

Without balanced regulation of the crypto market will innovation be stifled by the state?

For: Paul Murphy, Publisher of the Crypto Credit Report, Graychain
Against: Dr. Iwa Salami, Senior Lecturer in Financial law and Regulation, University of East London

Moderator: Ruth Wandhöfer, NED, Consultant & Partner, Gauss Ventures

16:15 - 16:45

Experts | Can regulation keep pace with innovation?

Elisabeth Noble, Senior Policy Advisor, European Banking Authority

16:45 - 17:00

Closing Conversation | The RegTech Community reflects on the day

Sian Lewin, Co-founder and Head of Client Delivery, RegTech Associates

Making financial services
Intelligent. Flexible. About You.

Many financial institutions have a problem.

Running on complex, legacy technology architectures not only increases operational cost and risk but also reduces the ability to innovate. At the same time, customers are asking for better and more personal experiences, standard in this day and age. **The Yobota Platform is a cloud-based core banking system that allows financial institutions to create products like that,** and focus on building genuine relationships and meet customer needs.

Offerings created by our customers are growing very quickly and are extremely well received by their clients.

Visit www.yobota.xyz to learn more about our work or drop us a line at hello@yobota.xyz to schedule a demo of Yobota Platform.

LIVE MUSIC STAGE

Top off your experience at FinTECHTalents 2019 at the Acoustic Stage, where independent acts from London's music scene will perform. Join us for an impressive line-up of carefully curated musicians and songwriters taking to the stage at the UK's ultimate fintech festival.

ESTHER
TURNER

Esther Turner is a UK singer songwriter based in Birmingham. Surrounded by a range of music growing up, she's been influenced by everyone from Michael Jackson and Avril Lavigne to Joni Mitchell and Basement Jaxx.

Teaching herself guitar, piano and the drums, she started writing her own songs and hit the road gigging. She's also been interviewed by the BBC's Sunny and Shay and played at BBC Introducing's 10th Birthday.

She's supported the likes of Ed Sheeran and the Jacksons and has opened for Justin Bieber and Katy Perry but is now working on her EP due for release this year.

The youngest child of a traditional Jewish home, music has played a major part in Ilana's home life and she has been songwriting and singing since early childhood with her first TV appearance for an original composition at age 11.

She spent two decades working with established international recording artist & bands at Sony Music, but inspired by her own journey and challenges as an artist, she turned her focus to coaching and showcasing emerging talent by creating an artist hub and community that has now become one of the leading underground communities for New Talent in London.

ILANA
LORRAINE

Her vision to re-focus on her own musical endeavours led Ilana to release her debut album 'My Little Tree' in February 2009 and she is now working on her second album, which maintains the theme of innocent wonder, empowerment & nostalgia times gone by.

SOPHIE LLOYD

London-based Sophie Lloyd radiates dancefloor magic behind the decks and in the studio, producing “happy music” as an antidote to the world’s pervading doom and gloom. She’s a DJ with over 15 years experience, an authoritative depth of musical knowledge and an innate talent for creating an atmosphere with music. Her affinity for disco, soul and house music has seen her play alongside the likes of Mark Ronson, Horse Meat Disco, Purple Disco Machine,

Dimitri From Paris and Todd Terje, as well as being a frequent guest at Jade Jagers’ legendary Jezebel parties. A regular on the festival scene, she has curated a stage at Festival No6 in Portmerion as well as playing for Glitterbox, Classic Music Company and Secret Garden Party, Farr, Lovebox and Bestival, to name only a few. She has held numerous high-profile residencies in London and played for a range of world-class clients.

Sophie’s productions are also turning heads. With releases on Greg Wilson’s A&R label, Paper Recordings and MTA, she recently signed her sublime gospel house record ‘Calling Out’ to Classic Music Company. Featuring the uplifting voices of soul trio Dames Brown, ‘Calling Out’ has received critical acclaim and picked up remixes from the likes of Floorplan and Danny Krivit, David Penn & Riva Starr. The original 7” release continues to sell out while the record opens the dance music world up at Sophie’s feet. Always naturally understated, Sophie Lloyd’s impeccable taste shines through in everything she does, whether that’s an irresistible party soundtrack or a timeless disco record.

MODUPÉ

Modupé is vocalist with a powerful and distinctive voice. Influenced by the likes of Amy Winehouse, Brandy, and Bruno Mars, she’s also a talented songwriter and musician. She’s performed at many prestigious venues across London – including The Hard Rock Cafe, Proud Camden, Mahiki, The London Palladium, The Bedford Balham and BoxPark Shoreditch, providing incontrovertible proof that venues such as these recognise a rising talent in the music industry. Modupé has recently become the face of a huge Gibson Guitar campaign, in partnership with TFL and The Mayor of London. Her photo is featured on the side of the two London bus routes! She’s also a Resident Artist at the renowned Roundhouse Camden!

CRAFT BEER SESSIONS

HOWLING HOPS

CREATED IN HACKNEY

Howling Hops was established in 2011 by Peter Holt, whose dream it was to brew beer in the tiniest space in the UK, under the Cock Tavern in Hackney. Since then, they've brewed and perfected over 100 recipes on their 4-barrel kit, have moved to their new home in Hackney Wick, and were voted one of the top ten beers in London by The Independent.

DAS KÖOLSCH

4.6% A lager with a bready malt aroma and hints of the noble hops Tettnang and Mittlefruh. Reserved bitterness and a full mouthfeel.

HOUSE IPA

6.9% Juicy New England styled IPA. High chloride/sulphate ratio gives the impression of a fuller mouthfeel to complement the ultra juicy hop varieties used in the two dry hop additions. Aromas of peach, orange and earthy fermented fruits combine with the drinkable, not-quite-sweet body. Reserved bitterness aides the perceived sweetness to accentuate the fruity aromas/flavour.

HOUSE IPA
INDIA PALE ALE - 6.9% ABV

PALE XX
AMERICAN PALE ALE - 5.1% ABV

PALE XX

5.1% American style pale ale. Fruity aroma complementing a more complex malt base than the Pale Ale. Fermented with the house yeast (New England strain) it produces a more estery profile that requires more bitterness for drinkability. Similar stonefruit aromas but with a more dank forest vibe from the Columbus. Fruity flavour with an assertive bitterness.

TROPICAL DELUXE
PALE ALE - 3.8% ABV

PALE ALE

3.8% American style session pale. A fruity and hop forward session beer fermented with a New England yeast strain. Aromas of stone fruit and pine, reserved malt profile and a clean dry finish.

Fintech Doctoral Programme Sponsorship

THE UNIVERSITY
of EDINBURGH

EDINBURGH
INNOVATIONS

Become a company sponsor of the new Fintech Doctoral Programme

Our new PhD in Financial Technology is a collaboration between the University of Edinburgh, EIT Digital, Fintech Scotland, Scottish Enterprise and Highlands and Islands Enterprise.

Invest in talent development to gain competitive advantage

Attracting the right talent with knowledge of financial markets and the ability to harness the power of data and AI is key to providing your company with competitive advantage in an ever-changing digital world.

Drive development of fintech solutions and products

This unique programme combines a company research project with an industrial PhD training structure that has a focus on the intersections of finance and economics, and informatics and technology.

Co-funding is available from the EIT Digital to supplement company sponsorship.

To discuss opportunities:

Ksenia Siedlecka

Business Development Manager

MAKE NETWORKING SIMPLE WITH BRELLA

Are you missing out on making the best connections possible at FinTECHTalents 2019? Our private networking tool, Brella, lets you view the event schedule, who is attending and book 1-to-1 meetings with your best matches.

Step 1 - Sign In

Join the community at <https://next.brella.io/join/> [redacted]

The event code is [redacted]

Step 2 - About Yourself

Complete your profile including interests and a catchy pitch for Brella's unique algorithm to recommend the most relevant connections for you.

Step 3 - View Attendees and Schedule

Scroll through the attendee list and schedule to see the full agenda and available networking times. By booking meetings and selecting content you can create your own schedule.

Step 4 - Book Meetings

Click Suggest Meeting, select a time and send the request. It's as simple as that!

Step 5 - Download the Brella app

Download the Brella app from the App Store & Google Play or scan the QR code.

Use our code [redacted] to join us.

You'll be assigned a meeting spot once your meeting is accepted.
Please refer to the map in this guide for location details.

SECRET SHOPPER

THE FINTECHTALENTS SECRET SHOPPING SQUAD

The squad is an elite group of covert operatives – watching, evaluating and visiting our line-up of exciting FinTech companies as part of the FinTech Stories streams on Days 1 and 2 of the festival.

The FinTECHTalents Secret Shoppers are made up of technologists and innovators from across financial institutions, tech providers, and investors. We can't share their names, but they come from a range of organisations, including HSBC, Northern Trust, Santander, Finastra, and TSB. At the end of Day 2, we will tally your scores and reveal an ultimate 'FinTECHTalents Secret Shopper' winner.

The winner will be announced on the exhibition floor at 6:30pm on Tuesday 12th November

BREAK THE CYCLE

Comms for Good launches the biggest ever Fintech charity campaign, Break the Cycle at FinTECHTalents 2019 as Festival goers are challenged to race each other on exercise bikes.

Break the Cycle is a workplace race to cycle round the world in 80 days on exercise bikes and raise £80,000 for four Mental Health charities. The big race will run from January to March 2020.

Competing companies will race against industry partners, peers and competitors to pedal around the world – that's 18,000 miles – without leaving the office. Using exercise bikes in a lobby, break-out space or a meeting area, company employees and visitors will cycle a virtual round the world route, which will be tracked online for all to see. More about the race at commsforgood.org.

Extreme competitive behaviour, underhand tactics to stay ahead in the race, and fundraising by any creative or unusual means is STRONGLY ENCOURAGED.

Break the Cycle Charity Partners:

Mental Health UK

MQ – Mental Health Research

Beat – The UK's Eating Disorder Charity

Young Minds – Child and Adolescent Mental Health

Together we can #BreakTheCycle of Mental Health Issues and increase wellbeing for ourselves and our families.
